

Candidate Name

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented individual with strong analytical thinking, seeking to leverage skills in problem-solving, team collaboration, and leadership to drive business growth as a Campus CEO at CashKaro.

TECHNICAL SKILLS

Programming Languages: Java, C, C++, Python, HTML, CSS, Frameworks: NodeJS, React, Tools/Platforms: MySQL, Postman, Visual Studio Code, Soft Skills: Problem-Solving, Team Player, Time Management, Adaptability, Good Communication Skills, Interpersonal Skills, Presentation Skills

WORK EXPERIENCE

Summer Trainee | *Lovely Professional University*

- Implemented data structures like AVL Trees, Heaps, and Graphs to optimize search operations
- Applied algorithms such as BFS and DFS for efficient traversal and problem-solving
- Strengthened algorithmic thinking through hands-on implementations

PROJECTS

Farm-Tech Website

A web-based farmer support system that determines eligibility for government crop schemes

- Developed core modules using PHP, HTML, Tailwind CSS, including scheme-eligibility logic, form validations, and responsive dashboard
- Enabled farmers to instantly check scheme eligibility, improving accessibility and reducing manual verification time by >60%

Inventory Management System

A system that allows users to add, rename, delete, search, and view all products with efficient data handling

- Designed and implemented core functionalities using C++ with AVL Tree, optimizing product lookup and ensuring balanced, high-performance operations
- Improved product retrieval speed and system stability, reducing search time by up to 50% through AVL tree-based indexing
