

ATS MATCH ANALYSIS REPORT

OVERALL MATCH SCORE
100.0%

ATS Compatibility: 70/100

■ MISSING SKILLS

- practical experience with AutoCAD or SolidWorks
- exposure to simulation or analysis tools
- knowledge of quality standards and safety practices
- experience with automation or industrial systems

■ RECOMMENDATIONS

- Include specific projects or experiences that demonstrate mechanical engineering fundamentals
- Highlight any relevant certificates, training, or coursework in CAD design, manufacturing processes, or quality control
- Emphasize transferable skills, such as problem-solving, analytical thinking, and collaboration
- Tailor the resume to match the job description, using keywords like 'mechanical systems', 'design', and 'optimization'

■ FORMATTING & ATS TIPS

- Use clear headings and bullet points to organize the resume
- Use action verbs like 'Designed', 'Developed', and 'Improved' to describe experiences
- Include relevant metrics or statistics to demonstrate the impact of work
- Limit the use of generic phrases and focus on specific accomplishments
